October 28, 2008

Trading Symbol: CNQ: ALM

Cancellation of Stock Options

(Kamloops, BC: October 28, 2008) Alliance Mining Corp. (the "Company" or "Alliance") is pleased to announce that stock options totaling 400,000 shares that were issued on September 18, 2007 have been canceled by the option holder. The exercise price of the stock options were \$0.15 per optioned share and were to expire on September 18, 2012.

The Option holder believes it to be in his best interests as a director, officer and shareholder of the Corporation to cancel the Option so that those options granted to the Option holder may be granted to individuals as incentives to join the Board of Directors of the Corporation, whose expertise may increase the value of the Company.

About Alliance:

Alliance's strategy is to concentrate on historical mining districts hosting dozens to hundreds of smaller mineralized zones that can quickly be delineated into resources while targeting higher-grade zones for mining using state of the art technologies that are not only cost effective but environmentally safe. Alliance is presently focused on properties in Arizona and Nevada. To learn more about Alliance visit www.alliancemining.com.

Certain of the statements made and information contained herein is "forward-looking information" within the meaning of the Ontario Securities Act. This includes statements concerning the Company's plans at its mineral properties, which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. Forward-looking information is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking information, including, without limitation, the availability of financing for activities, risks and uncertainties relating to the interpretation of drill results and the estimation of mineral resources and reserves, the geology, grade and continuity of mineral deposits, the possibility that future exploration, development or mining results will not be consistent with the Company's expectations, metal price fluctuations, environmental and regulatory requirements, availability of permits, escalating costs of remediation and mitigation, risk of title loss, the effects of accidents, equipment breakdowns, labour disputes or other unanticipated difficulties with or interruptions in exploration or development, the potential for delays in exploration or development activities, the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, expectations and beliefs of management and other risks and uncertainties. In addition, forward-looking information is based on various assumptions. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information, whether as a result of new information, future events or otherwise.
