William R. Wilson Joins Alliance Mining's Board

Kamloops, BC: Alliance Mining Corp. (the "Company" or "Alliance") is very pleased to report that William R. Wilson has joined the board of directors, effective today.

William R. Wilson's corporate experience includes creating and managing twelve mining companies over 25 years as a director, officer and/or CEO with mines and properties in the United States, Canada, Russia, Democratic Republic of Congo and Ukraine.

Most recently he has been President and COO of New Horizon Uranium Corporation, Toronto Venture Exchange) a director and chairs the audit committees of BRC DiamondCore Ltd. and Loncor Resources Inc. both traded on the Toronto Venture Stock Exchange. Previously he was President of Basin Perlite Company from October 1999 to January 2004; President & CEO of Banro Corporation from January 2001 to 2004 and Vice President – Mining of Tonogold Resources, Inc. from April 2004 to August 2005.

He is a graduate of the Colorado School of Mines with a Metallurgical Engineering degree and of the University of Southern California with a MBA. Mr. Wilson is a member of the AusIMM, the Mining and Metallurgical Society of America, the Canadian Institute of Mining and the Society of Mining, Metallurgy and Exploration. He is also an instructor at the Colorado School of Mines in mining and industrial minerals.

About Alliance:

Alliance's strategy is to concentrate on historical mining districts that have the potential to host several to hundreds of mineral deposits and selectively delineating the higher-grade zones for selective mining and placing lower grade bigger tonnages into resource classifications by using state of the art technologies that are not only cost effective but environmentally safe. Alliance is presently focused on its portfolio of gold and base metal properties in central Arizona.

Certain of the statements made and information contained herein is "forward-looking information" within the meaning of the Ontario Securities Act. This includes statements concerning the Company's plans at its mineral properties, which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. Forward-looking information is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking information, including, without limitation, the availability of financing for activities, risks and uncertainties relating to the interpretation of drill results and the estimation of mineral resources and reserves, the geology, grade and continuity of mineral deposits, the possibility that future exploration, development or mining results will not be consistent with the Company's expectations, metal price fluctuations, environmental and regulatory requirements, availability of permits, escalating costs of remediation and mitigation, risk of title loss, the effects of accidents, equipment breakdowns, labour disputes or other unanticipated difficulties with or interruptions in exploration or development, the potential for delays in exploration or development activities, the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, expectations and beliefs of management and other risks and uncertainties. In addition, forward-looking information is based on various assumptions. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information, whether as a result of new information, future events or otherwise.
